Subject: URGENT: Will EPA look into chemical fire air pollution concerns

Good afternoon,

My name is Yessenia Funes. I'm a reporter with Gizmodo, a national science and tech news site.

I'm reaching out to see what updates the EPA has regarding the Deer Park chemical fire. I'm also curious if EPA is doing its own air quality monitoring separate from the TDEQ. There are community concerns that the state agency is fudging numbers. Can the EPA take any actions to secure the public they're safe?

I'm hoping to write something about this sometime tomorrow. Hope to get some more information from you all.

Thanks.

Yessenia Funes
